

**In the Thirtieth Legislature
Of
The Province of Saskatchewan**

To the Honorable Legislature of the Province of Saskatchewan

**The humble petition of Dale J. Richardson and the inhabitants
of Saskatchewan humbly sheweth**

**DSR KARIS CONSULTING INC.
Mechanical Engineering Technologist
Bachelor of Technology – Engineering & Applied Science Major**

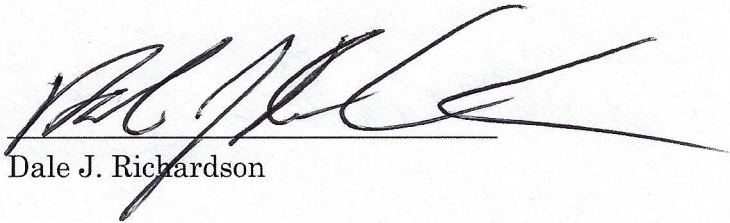

1. THE CONSTITUTION ACT OF 1867 ARTICLE VI § 92(14).
EXCLUSIVE POWERS OF PROVINCIAL LEGISLATURES,
SUBJECTS OF EXCLUSIVE PROVINCIAL LEGISLATION Sec 14 The
Administration of Justice in the Province, including the
Constitution, Maintenance, and Organization of Provincial
Courts, both of Civil and of Criminal Jurisdiction, and including
Procedure in Civil Matters in those Courts..
2. The Parliament unlawfully and unconstitutionally exceeded its
powers granted in Article VI § 91 of the Constitution Act 1867
with the Issuance of the Royal Canadian Mounted Police Act
1985, circumventing § 92(14) of the Constitution Act 1867
removing control of the Administration of Justice from the
Province of Saskatchewan, and having servants of the federal
crown acting against the Province of Saskatchewan during the
COVID-19 pandemic response; which protected the criminally
negligent engineering protocols implemented by the
Saskatchewan Health Authority directly tied to the handing
over of biological weapons that are the subject of treason
investigations at the Winnipeg Biolabs that preexisted the
issuance of Declaration of the State of Emergency issued March
18, 2020 by the Government of Saskatchewan.

Prayer For Relief

WHEREFORE, the Petitioner and all undersigned demand the following relief and hereby instruct our public servants to discharge their duties as instructed by the People of Saskatchewan.

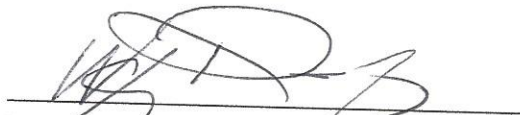

3. We, the undersigned, petition the Legislative Assembly to investigate the malfeasance, misconduct and gross negligence, of the Saskatchewan Party's governments role in creating the conditions for the Saskatchewan Health Authority role in the corruption outlined in attached Appendix containing evidence filed in the State of Texas, Michigan, Colorado and the Province of Alberta, the failure of the Association of Professional Engineers and Geoscientists of Saskatchewan to alert the Government of Saskatchewan of the delivery system for biological weapons provided by the Center for Disease Control and Prevention used to initiate the pandemic response, the corruption within the RCMP based on the federal encroachment inherent in the RCMP Act circumventing § 92(14) of the Constitution Act 1867 and the judiciary that has concealed the aforementioned concerns, and mentioned in the attached petitions in support of this petition for Redress of Grievances.
4. We the undersigned require the Saskatchewan Legislative Assembly create the necessary legislation and changes to RCMP policing and any other matter as needed after an inquiry before the Saskatchewan Legislative Assembly.
5. To do an investigation to verify our claims of corruption made prominent and concealed high treason used to initiate the COVID-19 pandemic response.

We the Petitioners and all undersigned respectfully submit this Petition on the 7th day of October in the year of our Lord two thousand and twenty four.

Dale J. Richardson

TO THE THIRTIETH LEGISLATURE
OF
THE PROVINCE OF SASKATCHEWAN: PREFACE

This brief supporting the Petition is being presented in good faith, and this Petition is the first delivered by the Petitioner and the other signatories following due process of law as delineated by the common law of the Westminster Parliamentary system dating back to 1680. This right of petition has largely been lost over time; however, its use in this situation is absolutely critical and it is in complete harmony with the Westminster Parliamentary system, the free and democratic society and the preamble of the Charter that acknowledges that Canada is founded upon principles that recognize the supremacy of God and the rule of law. When understanding that Canada was founded on the principles recognizing the supremacy of God and the rule of law, then the protestant Canadians would have acknowledged the self-evident truths that were penned by the Founding Fathers of the United States of America as outlined in the Declaration of Independence as follows “We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed”. As God is the Creator of Mankind, then Rights must come from God. Only The Creator of Mankind can bestow these rights and this is expressly implied when there is no provision for any limitation of rights outlined in the Constitution Act 1867.

The Petition is following the common law processes that birthed by the Westminster Parliamentary dating back to 1680 to safeguard this great nation, that were instituted in the Province of Saskatchewan when it entered Confederation and its Provincial powers are clearly defined in Article VI § 92(14) of the Constitution. The COVID-19 pandemic response made unprecedented changes to lives of the people in the state of Saskatchewan. Unconstitutional deprivation of Liberties were enacted since the first declaration of the State of Emergency declared under the provisions of Public Health Act issued on March 18, 2020 and many of these unlawful provisions were enforced by the Royal Canadian Mounted Police who were operating without any governing law based on a plain reading of Article VI § 92(14) of the Constitution and Part VII § 52(1). These To the knowledge of the *Petitioners*, no investigation has been made into these events and; this Brief is attached to a Petition made in good faith by all the men and women who have brought said Petition forth before the Legislature of the Province of Saskatchewan.

OPENING STATEMENT

We the subscribers, crime victims, free inhabitants, the People of the Territory of the Province of Saskatchewan, and Residents of the Province of Saskatchewan having taken into consideration of the actions of those elected to be representatives of the People of the Province of Saskatchewan that were placed in those positions to enact the will of the People of the Province of Saskatchewan to faithfully uphold the laws of the Province of Saskatchewan and the Constitution of Canada; and all other public servants lawfully or unlawfully created by the representatives of the People do Petition against the actions contained herein without limitation.

The right of Men, Women and Children to a Freedom is guaranteed by the *Constitution of Canada*. This Constitution set forth to protect the self evident rights set forth in the Declaration of Independence, the right to Life, Liberty and the pursuit of Happiness.

Several People who have signed the Petition have experienced severe deprivations of Rights in the Province of Saskatchewan during the COVID-19 pandemic response since the issuance of the state of emergency under the provisions of Public Health Act. Federal encroachments were involved in all of the cases within the Province of Saskatchewan. Torture and Human trafficking were exasperated as a result of the COVID-19 in several of the Petitioner's cases directly resulting from the COVID-19 response and the unconstitutional operation of the Royal Canadian Mounted Police.

The first Petitioner, Kaysha Richardson a citizen of the Métis Nation of Saskatchewan, has been subjected to extreme cruel and unusual punishment and torture among other gross forms of punishment and persecution. Some of the issues that have forced Kaysha Richardson to flee for her safety to the United States of America on October 1st of 2020 is directly related to the crimes that took place within the Province of Saskatchewan. On February 14, 2020 Kaysha Richardson Arrived from Alberta after she was savagely assaulted by her ex-husband Dave Dery and then sexually assaulted repeatedly in the hospital in Ponoka Alberta, in the company of her grandmother Agatha Richardson, her aunt Astra Richardson-Pereira and her cousin Isaiah. Her Ex-husband was charged and convicted for the assault. Kaysha Richardson was forced into the hospital after reporting that her ex-husband Dave Dery assaulted her. Kaysha

Richardson was sexually assaulted repeatedly there until her father Dale J. Richardson went from North Battleford out to Ponoka to speak to the doctors to have her released, and then Agatha Richardson drove Kaysha Richardson to North Battleford. The following day Kaysha Richardson was assaulted by her then step mother Kimberley A. Hebert at the Battlefords Seventh-Day Adventist church in front of several witnesses. The Battlefords Royal Canadian Mounted Police (“RCMP”) were called, no charges were filed that day. Kaysha Richardson returned later to the Battlefords RCMP to file an assault complaint against Kimberley A. Hebert, and Kaysha was in the company of her father Dale J. Richardson and a man known as Robert A. Cannon, but a freedom of information request regarding complaints made to CST Burton Roy state that Kaysha made a complaint for sexual assault against Kimberley A. Hebert, however numerous videos of the interviews proved this assertion by CST Roy to be false. Kaysha Richardson was assaulted, unjustly abducted and tortured on July 23, 2020 when attempting to enter the Court of King’s Bench for Saskatchewan for two separate matters, one a hearing related to the failure of the RCMP to investigate two criminal negligence complaints related to her father Dale J. Richardson’s engineering report that expose a delivery system for biological weapons that was implemented to start the pandemic response in the province of Saskatchewan by the Saskatchewan Health Authority, and the other a family matter relating to her sister Karis K.N. Richardson.

On July 23, 2020 Kaysha Richardson was abducted by the RCMP under the guise of a COVID-19 quarantine order attempting to enter the court with her father Dale J. Richardson for the matters that were previously mentioned. Kaysha Richardson was viciously swarmed by the RCMP and thrown to the ground, cuffed with her backpack on

and then dragged away and then thrown into the back of the RCMP truck and then first taken to the Battlefords Mental Health Centre and then to her workplace at the Saskatchewan Hospital where she was search by male police officers and interrogated for hours by the male RCMP for information relating to information contained with in the engineering report titled “The Engineering of Bioterrorism, Child Trafficking, Treason and The Crime of Aggression Update II (A Preliminary Report and Analysis of Risk)”. Kaysha Richardson was threatened to be taken out of the province and other undisclosed locations and was told that her safety could not be guaranteed if she did not cooperate with giving the information over to the members who were interrogating her. Kaysha Richardson kept under 23 hour lock-down, was not fed properly, she had men coming in and out of her room randomly, she was not clothed properly and was not given a Bible readily. He location was not disclosed to anyone and her grandmother Agatha Richardson attempted to file a missing persons report to which she was denied by the RCMP who denied any knowledge of where Kaysha Richardson was but they told Agatha Richardson that Kaysha Richardson would contact her soon. Kaysha Richardson was held in the facility that she worked at for eight days under those cruel and unusual conditions. While she was being tortured in that facility she was deprived of her place to stay while she had a valid lease in the basemen suite at 1292 95th Street North Battleford SK, her car was stolen, she lost all of her possessions and was cut off from her younger sister Karis K.N. Richardson through a family court hearing that settled an entire divorce proceeding on a first appearance and the judge, Justice R.W. Elson was the same judge who presided over the COVID-19 related matter that was the subject of the criminal negligence complaints

that were filed by her father on July 3, 2020 with the Battlefords RCMP and their failure to investigate.

After being wiped out financially with no due process, Kaysha Richardson was transported to the Province of Alberta by Robert A. Cannon near Black Diamond and raped repeatedly while her father Dale J. Richardson was strapped to a bed and drugged against his will, being tortured for exposing high treason against Canada and treason against the United States and numerous other crimes. After Dale J. Richardson was released from the torture at the BMHC but he was still heavily under the effects of the psychoactive drugs administered that were calculated to profoundly disrupt his senses, Kaysha Richardson fled to the United States for fear of receiving the treatment that her father had received or worse. Kaysha Richardson who presented her Indigenous documentation and other forms of identification such as her Canadian passport, driver's license, birth certificate & marriage certificate, she denied her right of entry to the United States articulated under section 3 of the Jay Treaty and was unlawfully taken into custody by the U.S. Customs and Border Protection. Kaysha Richardson was processed as an undocumented immigrant, had her identity documents concealed by CBP she was then transported across state lines to Nevada where she was held in a detention facility in Parump Nevada where she was held for seven months until Dale J. Richardson pressured the Canadian consulate in California to confirm by way of letter on March 18 2021. After Kaysha Richardson was released, she was trafficked drugged, beaten and raped multiple times as a result of the failure of the RCMP in Saskatchewan, Alberta and multiple law enforcement agencies in Canada and the United States working in concert to suppress the evidence of treason and used the trafficking of Kaysha Richardson to

punish her for not lying about her father and the crimes that he was exposing that numerous government officials in the Province of Saskatchewan are involved in and governmental agencies like the Saskatchewan Health Authority.

1. For the purposes of this Convention, the term "torture" means any act by which severe pain or suffering, whether physical or mental, is intentionally inflicted on a person *for such purposes as obtaining from him or a third person information or a confession, punishing him for an act he or a third person has committed or is suspected of having committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind, when such pain or suffering is inflicted by or at the instigation of or with the consent or acquiescence of a public official or other person acting in an official capacity. It does not include pain or suffering arising only from, inherent in or incidental to lawful sanctions.*

The financial losses from the torture, kidnapping, rapes, unlawful detention, unlawful use of the legal system/law enforcement to drive her into a state of peonage, transport her across jurisdictions from North Battleford to Black Diamond AB, to be raped by Robert A. Cannon while her father Dale J. Richardson was strapped to a bed and drugged against his will is violations of 279.01 (1) **Trafficking in persons;** - Every person who recruits, transports transfers, receives, holds, conceals or harbours a person or exercises control, direction or influence over the movements of a person, for the purpose of exploiting them or facilitating their exploitation is guilty of an indictable offence. This trafficking was done in the commission of the crime of torture. This is one of

the grossest forms of human trafficking, for the destruction of political enemies using torture tactics that could have ended the life of Kaysha Richardson.

In 2020, the research conducted by the next Petitioner Dale J. Richardson lead to the engineering report titled “The Engineering of Bioterrorism, Child Trafficking, Treason and the Crime of Aggression Update II (A Preliminary Report and Analysis of Risk)” uncovered the distribution method of a biological weapon that was masked as a random disease outbreak using sabotaged guidelines. A critical piece of information relating to efficiency was removed from Aerosol Generating Medical Procedures (AGMP) issued by the Center for Disease Control and Prevention (CDC) guidelines that could increase pathogen removal times by a multiplying factor of 10 times was removed. This change would create unknown failures in an unknown number of systems that could not be accounted for. The CDC had previously provided a correct representation of the AGMP guidance in 1994 and then changed it after the SARS-Cov-1 outbreak in 2002. In research documentation provided in evidence packages submitted to several FBI field offices and numerous RCMP detachments including the Chestermere RCMP detachment, presented evidence that the Public Health Agency of Canada (PHAC), SHA, CDC and the WHO all used information that was known to spread pathogens and have deleterious effects on the populations based on lessons learned from the SARS-Cov-1 outbreak in 2002 and implemented the negative measures during the SARS-Cov-2 in 2019. What was observed is a systematic implementation of incorrect infection controls responses that are known to be ineffective at every stage of the pandemic response finally culminating in the excess deaths as reported by Dr. William Makis. The engineering report is intellectual property owned by DSR Karis North Consulting Inc. (“Karis North”), a corporation from the State

of Delaware and is protected by U.S. copyright. The information contained within the report is directly tied to the PHAC handing over the gain of function viruses to the Chinese at the level 4 Winnipeg biolab. The PHAC introduced the delivery system for biological weapons designed to look like a random outbreak and then introduced it into Saskatchewan through the SHA which is a crown corporation under the domain of the Saskatchewan Ministry of Health. When the PHAC created a delivery system for biological weapons designed to look like a random outbreak and then handed over biological weapons to the Chinese that are spread through the delivery system, that is high treason. Premier Scott Moe, the Saskatchewan Ministry of Health, the NDP who stayed silent, and the SHA leadership are responsible for the implementation of the delivery system for the biological weapons are all a part of that high treason.

Engineering controls are the first step in the pandemic response and responsible for the largest part of infection controls for an airborne (aerosolized) pathogen. Engineering controls rely on dilution, destruction and filtration to remove the required pathogens from the air to acceptable levels where an infectious load no longer exists. This step was not taken and deliberately changed without the supporting documentation required to justify any such change. There was a breakdown in a number of agencies for this engineering control to be produced, however, it is impossible for the changes to take place without deliberate intent. The Engineering controls given for Heating Ventilation and Air Conditioning (HVAC) systems were disseminated would in many cases spread disease rather than mitigate it. The AGMP guidance was issued by the CDC, implemented by the PHAC and provincial health authorities and given to incompetent people under a large amount of duress after the first lockdowns from the COVID

pandemic and expected to make intelligent decisions that it was impossible for them to make. The engineering report demonstrates evidence of the AGMP guidance being implemented improperly by plumbers, HVAC technicians and engineering professionals implementing them incorrectly within hospitals in Canada. The delivery system still exists within Canada and the United States today and can be exploited at any time.

Dale J. Richardson who is the father of Kaysha Richardson was harmed directly because of the actions of Robert A. Cannon (“Cannon”) who frustrated attempts to report treason against the Province of Saskatchewan, the United States, and high treason against Canada, sexually assaulted and trafficked his daughter Kaysha Richardson in the Province of Saskatchewan and took other steps to ensure that Dale J. Richardson was unable to assist his daughter in anyway and executing a two fold level of torture and cruel and unusual punishment to allow for further trafficking of Kaysha Richardson to silence Dale J. Richardson and stymie his efforts to report crimes against Alberta, Canada and the United States. The distribution system for a biological weapon designed to look like a random outbreak was concealed for the last 4.5 years and for over 3.5 years by Cannon operating as an enemy of the Province of Saskatchewan, Canada and the United States assisting those who were committing treason, human/child trafficking, terrorism, money laundering, prohibited racketeering activity and other crimes without limitation. The actions of Cannon and multiple other actors contributed to the peonage of Dale J. Richardson by frustrating numerous attempts to alleviate the torture, rapes, trafficking and other grievous crimes against his daughter that were perpetrated to prevent him from reporting treason against the Province of Saskatchewan, Canada, the United States, human/child trafficking, prohibited racketeering activity and other

egregious crimes without limitation. The RCMP's failure to obtain the interview notes, body cam footage and other evidence supplied to the Volusia County Florida Sheriff's office hindered the investigation and permitted Cannon to walk freely after sexually assaulting Dale's daughter in multiple jurisdictions.

In the case of Dale J. Richardson, rogue agents of DHS, ICE and CBP were again employed to traffick and torture him to suppress the evidence of treason against the Province of Saskatchewan, Canada and the United States. The forced deportation was an egregious abuse of immigration laws to overthrow the Province of Saskatchewan, Canada and the United States as a whole. The severe torture that he was subjected to was done with the express purpose of creating the conditions for the invasion into the Province of Saskatchewan, Canada and the United States as a whole. Dale J. Richardson uncovered a delivery system for biological weapons designed to look like a random outbreak that was implemented into the critical infrastructure of the Province of Saskatchewan, Canada and the United States by the Center for Disease Control and Prevention at the start of the COVID-19 pandemic response. A delivery system to deliver biological weapons designed to look like a random outbreak is an act preparatory to levying war and it is treason. Every person in the Province of Saskatchewan, Canada and the United States is a victim of that treason.

This petition is directly necessitated by the failure of the Legislative Assembly of Alberta who received this evidence first in the month of November in 2023. Dale J. Richardson submitted this evidence to the Alberta Serious Incident Response Team (ASIRT) for an investigation requested by Chestermere Alberta Mayor Jeff Colvin.

However, the investigation was thwarted by Alberta Minister of Municipal Affairs Ric McIver when he unlawfully removed Jeff Colvin and three city counsellors on December 4, 2023 to prevent the evidence of treason against the United States from being exposed. Ric McIver had a direct connection to the treasonous activities outlined in the attached documentation. When Ric McIver removed Jeff Colvin to prevent the ASIRT investigation, he ensured that the RCMP's role in interfering in United States and Colorado elections was concealed as well as theirs and the Alberta Health Services and the Saskatchewan Health Authority's role in ensuring the spread of COVID-19 to interfere with the 2020 United States Presidential elections and implementing the COVID-19 vaccination program which was a direct product of the treasonous activity. The Chestermere and Battlefords RCMP were instrumental in suppressing the evidence of the delivery system for the biological weapons designed to look like a random outbreak that was implemented by the CDC and PHAC when biological weapons were handed over to the Chinese at the Winnipeg Biolabs in 2018. The Chestermere RCMP Detachment commander Staff SGT Kathy Klassen was connected to all parties who contributed evidence and was actively involved in suppressing the treason against the United States. She was caught conspiring to frame Jeff Colvin for crime when he was exposing local corruption. Because of this conspiracy to commit crimes to remove lawfully elected officials by criminal means, Jeff Colvin and several other city officials not involved in the corruption contracted DSR Karis Consulting Inc. to prepare the evidence packages for the ASIRT request. On April 12, 2024 a Petition for redress of grievances was submitted to the Sergeant-At-Arms at the Alberta Legislative Assembly to be brought forward because of constitutional violations surrounding the RCMP and the treasonous activity. The

petition has not been brought to the floor of the Alberta Legislative Assembly. The Battlefords RCMP Detachment commander Inspector Gilbert is directly responsible for the suppression of this evidence as was his predecessor and numerous members within the Battlefords Detachment.

There has been a gross pattern of events that have outlined gross corruption within the government of Saskatchewan and its agencies. Justin Stevenson who has represented the Attorney General of Saskatchewan has been one of the worst offenders in abusing the power of the Attorney General of Saskatchewan to conceal fraud within the courts, treason, human trafficking, torture and other gross crimes without limitation listed in the documentation. Assistant Deputy Commissioner of the RCMP has been notified of the treasonous activity and has permitted it to continue under her watch; and Premier Scott Moe was personally served the Alberta petition in person at the town hall at Speers SK on April 28, 2024, and a substantial amount of documentation by fax several days later.

The next Petitioner, Wayne Rumpf was fired from his job at the Department of Highways on October 21, 2021 for not taking vaccines that were unlawfully mandated by Premier Scott Moe. Wayne Rumpf was given three options to get the vaccines that were mandated, get tested weekly which he would have to pay the costs of the testing or he would be fired. Wayne Rumpf kept record of the intimidation that he received to take the vaccine to keep his job or the other unconstitutional tactics used. Wayne Rumpf's Saskatchewan Government and General Employees' Union did not help him either, rather it sided with the governments position to intimidate and coerce him in an

egregious manner that is unlawful and outright criminal. This is in flagrant violation of occupational health and safety laws. Wayne Rumpf filed a criminal complaint with the Battlefords RCMP on June 9 of 2023 for Extortion 346(1), Intimidation 423(1) & criminal negligence 219(1) under the file number 2023-809002 and it was connected to file number 2023-787110. It was assigned to CST Rivest who was involved in the torture of Dale J. Richardson, Wayne Rumpf requested another member and the file was given to Sgt Buckingham. No investigation was conducted.

The practices observed are predatory, tyrannical and outright criminal. These types of practices are not permissible in any fashion, and the entire court process has been an affront to sensibility, an insult to due process and repugnant to the Constitution of Canada and United States Constitution.

ISSUES PRESENTED FOR REVIEW

Whether the Province of Saskatchewan should investigate, the crimes leading up to the proclamation of the state of emergency under the provisions of Public Health Act, The Parliament unlawfully and unconstitutionally exceeded its powers granted in Article VI § 91 of the Constitution Act 1867 with the Issuance of the Royal Canadian Mounted Police Act 1985, circumventing § 92(14) of the Constitution Act 1867 removing control of the Administration of Justice from the Province of Saskatchewan; and having servants of the federal crown acting against the Province of Alberta during the COVID-19 pandemic response; which protected the criminally negligent engineering protocols implemented by the Saskatchewan Health Authority, Justin Trudeau and the Liberal Party of Canada directly tied to the biological weapons that are the subject of treason investigations at the

Winnipeg Biolabs that preexisted the issuance of Declaration of the State of Emergency issued March 18, 2020 under the provisions of Public Health Act.

The next issue is that the aforementioned constitutional violations trigger the Constitution Act 1982 Part VII section 52(1) Primacy of Constitution of Canada: “*The Constitution of Canada is the supreme law of Canada, and any law that is inconsistent with the provisions of the Constitution is, to the extent of the inconsistency, of no force or effect*”. Since there is no provincial control of the Royal Canadian Mounted Police it is a clear violation of Section 52(1), the question remains is how to deal with the Royal Canadian Mounted Police who have been operating within the Province of Saskatchewan with no force of law and the impact that it has had on deprivations of the inalienable Rights of the subscribers, free inhabitants, the people of the Territory of the Province of Saskatchewan, the Residents of the Province of Saskatchewan and crime victims who were victimized within the Province of Saskatchewan and by people within the Province of Saskatchewan to conceal the aforementioned crimes. Lastly the element of foreign and domestic concealment of the furtherance of rampant human/child trafficking and the actions of Attorney General of Saskatchewan’s representative Justin Stevenson to protect himself, Premier Scott Moe, RCMP Assistant Deputy Commissioner Rhonda Blackmore, Justin Trudeau, Liberal Party of Canada, the Saskatchewan Health Authority, PHAC, and the Royal Canadian Mounted Police from the crimes caused by and/or exasperated by the proclamation of the state of emergency under the provisions of Public Health Act on the Provincial level that has contributed to a severe degradation of the of government within the Province of Saskatchewan is an essential part of the review.

SUMMARY OF THE ARGUMENT

There is no language in the Constitution of Canada that justifies any infringement of any Right secured by it, nor is there any language that justifies any infringement of any Right secured by the United States Constitution. The international nature of the commission of crimes by the Royal Canadian Mounted Police demands that the United States Constitution and its applicable statutes be used as there is substantial cross border collaboration on crimes of an identical nature between the two jurisdictions. Any attempt to limit the inalienable God-given Rights protected by the United States Constitution is allowing an avenue to permit Province of Alberta to be used as a means to continue hostile actions against the United States as has been outlined by Royal Canadian Mounted Police's role in suppressing evidence of violations of Article III Section 3 of the United States Constitution, Treason and other crimes without limitation. Article VI of the United States Constitution stipulates that "This Constitution, and the Laws of the United States which shall be made in Pursuance thereof; and all Treaties made, or which shall be made, under the Authority of the United States, shall be the supreme Law of the Land; and the Judges in every State shall be bound thereby, any thing in the Constitution or Laws of any State to the Contrary notwithstanding". That allows for violations of treaties to be punished by Congress as in the case of ordinary law.

Conspiracy to altogether prevent enforcement of statute of United States is conspiracy to commit treason by levying war against the United States. *Bryant v. United States*, 257 F. 378, 1919 U.S. App LEXIS 2212(5th Cir. 1919). This would include the constitution itself and any associated treaties. However, since the biological weapons were handed over to a nation that is hostile to both Canada and the United States after a

delivery system was created for the aerosolized gain of function pathogens before the biological weapons were handed over to the Chinese, and then an aerosolized bioweapon was then spread from the Virology lab in Wuhan, it is a glaring act of treason against the United States and high treason against Canada.

An investigation is demanded by the circumstances that have surrounded these cases. This requirement to investigate is presented in greater force when crimes were used to destroy rights protected by the United States Constitution in and extremely hostile action towards an ally not sanctioned by law; and no government has any just power to limit any investigation into any kind of malfeasance of public office to deprive the People of their Rights or People of another nation of their Rights. Human/child trafficking is a vile form of slavery that is present in every single instance and is repugnant to the Constitution of Canada and United States Constitution and should never be permitted under any circumstances. The COVID-19 pandemic response was used to implement slavery on an unprecedented scale and must be abolished; for the systematic nature of this slavery is destructive to the Province of Saskatchewan and to Confederation as a whole. Its systematic implementation with the levying of a biological war, clearly delineates its implementation as a part of the treasonous activity as a whole. It is destroying the Province of Saskatchewan, Canada and the United States by crippling its inhabitants, weakening morale and ability to repel invasion or to resist enemies from within. The current corruption is a direct result of the suppression of the information contained in the “THE ENGINEERING OF BIOTERRORISM, CHILD TRAFFICKING, TREASON AND THE CRIME OF AGGRESSION UPDATE II (A PRELIMINARY REPORT AND ANALYSIS OF RISK)”. If that evidence was not suppressed, none of the

issues raise in this brief would be taking place. It is the root cause of the installation of the treasonous actors using the wide spread corruption to levy war against the Province of Saskatchewan, Canada and the United States as a whole.

The United States Constitution opens with “*We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America*” The second paragraph of the Declaration of Independence opens with “*We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security*”. The

United States Constitution was created to protect the self evident inalienable rights enshrined in the Declaration of Independence and any law that is passed by Congress or any State must be in harmony with these two; It is like making a straight line using points and a cord. As each law is created, it must line up with the United States Constitution and the Declaration of Independence. If a law does not line up, then the law is repugnant to the Constitution. In addition, any decision made under any law must line up with the law, the Constitution and the inalienable Rights outlined in the Declaration of Independence or the wrong decision is made. A similar standard exists in Canada using the Constitution of Canada as the foundation, and keeping in mind that the acknowledging the supremacy of God and the rule of law would permit zero limitations of section 12, or any criminal law of any kind especially with those pertaining to slavery and high treason. Allowing any such section 1 limitations would allow for the commission of those crimes to be supported in Canada against the United States and that would incur the risk of invasion.

No one can presume to have the right to interfere with the more perfect Union of the United States and arrogate to themselves to usurp unjust power to deprive the United States and the People of Alberta and Canada of their Liberty. That is not a government deriving *“their just powers from the consent of the governed”*.

It is self evident that all limits on powers of the Executive were placed into the Constitution by the Founding Fathers to safeguard the “more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity” when

the Republican form of government of the United States was conceived. It is self-evident that the Province of Saskatchewan must place limits to restrain the legislative and other areas as needed to protect the Liberty of Saskatchewanians, Canadians and not to interfere with the Liberty of Americans.

Any limitation of any investigation into the proclamation of the state of emergency under the provisions of Public Health Act and the crimes committed to initiate the COVID-19 pandemic response that facilitated the corrupt activities of the Royal Canadian Mounted Police, the Saskatchewan Health Authority and numerous branches of the federal government will permit a great avenue for the destruction of Liberty in the Province of Saskatchewan, Canada as well as the Republic. For if one man can limit some element of the Constitution it will be an irresistible invitation seducing corrupt men into government to Invariably Pursue absolute Tyranny. Any limitation on investigation into the alleged corruption is too great a consequence to ignore; for if one man or woman can strip the inalienable rights protected by the United States Constitution and the Rights protected by the Constitution of Canada without full investigation, it will surely invite tyranny to this Province and to this great Nation. Because of this self-evident fact, provisions were made through the Westminster Parliamentary system for the right of Petition, making it the right of the People to have any and all evidence and claims brought for to investigate the government who derive their just powers from the consent of the governed. Hence the provisions made within the Constitution of Canada the United States Constitution that permit necessary changes to be made to arrest overreach and that idea can be ascertained by this quote: *“That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and*

to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness”.

This inherent Right of the People to alter or abolish any Form of Government that becomes destructive was designed in the United States Constitution to accomplish this end without bloodshed. Similar provisions albeit to a lesser extent exist within the Constitution of Canada and its laws.

Human/child trafficking for the purposes of sexual and financial exploitation has been used to suppress the exposure of gross governmental corruption as outlined in the report titled “The Engineering of Bioterrorism, Child Trafficking, Treason and The Crime of Aggression Update II (A Preliminary Report and Analysis of Risk)”. In fact, human/child trafficking along with torture has been the primary means of suppressing the evidence of the gross corrupt activity. The judiciary has been a primary mechanism to traffick human adults and children. The civil court system has been effectively separated and protected from the criminal laws to allow for organized crime to flourish in an area protected by the doctrine of judicial immunity. Family court systems have been used to drive parents into states of peonage, leaving them unable to defend the liberty of their children. Unconstitutional tribunals set up that lack a jury of one’s peers, have allowed for inquisition like practices to be established in the Canada and United States; thus, establishing a new form of slavery that does not bear the iron chains to develop. This systemic enslavement of the Canadian and American people is an offensive tactic that has been used to destroy the People of both Nations to weaken the population, break

their will making them unable to repel invasion or insurrections. When examining the escalation of human/child sex trafficking in conjunction with the discovery of the crimes connected to the initiation of the COVID-19 pandemic response in early 2020, the widespread election interference made possible by the aforementioned crimes, the COVID-19 vaccination program, the vaccination mandates, the lockdowns that destroyed jobs and businesses which in turn increased involuntary servitude and peonage, the loss of life and injuries that have facilitated human/child for the purposes of sexual and financial exploitation of children is a gross form of tyrannical overreach and are contributory factors to the destruction of the Constitutional Monarchy and the Republic. Had Kaysha Richardson who is an American Indian born in Canada, not been kidnapped, trafficked, tortured and then placed in circumstances to be drugged raped and trafficked starting October 1, 2020 and permitted to present evidence of the biological weapons delivery system that was used to interfere with the 2020 elections, none of the circumstances that are being petitioned today would have taken place. Compounding this initial crime is the trafficking and torture of Dale J. Richardson the deprivation of due process and forced deportation to prevent him from reporting the treason against the Province of Saskatchewan, Canada and the United States. The enemies of the United States went to great lengths to ensure that their treasonous activities would be concealed to allow the World Health Organization which is the militarized biological weapons arm of the United Nations to continue its assault on the United States with impunity. Justin Stevenson, Premier Scott Moe, Justin Trudeau, Liberal Party of Canada, the Saskatchewan Health Authority, PHAC, the Royal Canadian Mounted Police, and the local North Battlefords officials should not be protected by the Attorney General of

Saskatchewan or the Attorney General of Canada from investigation. That is an affront to a free and democratic society and it is the imposition of absolute tyranny.

The Convention against Torture is the supreme law of the land and cannot be abrogated for any reason. There is a clear conspiracy to prevent the enforcement of a United States statute, with force used in the foregoing conspiracy. Children have been weaponized and have had all of their God-given rights deprived. The Royal Canadian Mounted Police have demonstrated that it operates in direct opposition the Constitution of Canada, the United States Constitution and the Inalienable Rights enshrined in the Declaration of Independence. The use of the force of the state employed to aid the Royal Canadian Mounted Police in it's campaign to forcefully deprive Dale J. Richardson of his Liberty and pursuit of Happiness without lawful cause is a systemic violation of the Convention against Torture and repugnant to Section 12 the Charter. The assault of the liberty and right to be free from cruel and unusual punishment was egregiously infringed by multiple provincial and federal agencies to deprive Wayne Rumpf of numerous constitutional rights including his section 7 rights in a criminal manner at the acquiescence of the Royal Canadian Mounted Police who are supposed to enforce the law. Rape, human/child trafficking is one of the worst forms of cruel and unusual punishment, torture and slavery and the refusal of the Royal Canadian Mounted Police to investigate these crimes with volumes of evidence is of the most offensive nature that would outrage the general public. Rape and human trafficking was used over a 4.5 year period on Kaysha Richardson to silence her and her father and the root cause is the Royal Canadian Mounted Police in the Province of Saskatchewan who are refusing to prosecute crimes to allow rapists and human traffickers to walk free. The court system has been

abused in a manner where two people Dale J. Richardson and Kaysha Richardson were abducted and tortured to silence a case relating to the COVID pandemic response that would have shutdown the entire pandemic in July of 2020 if it was investigated; instead the courts were used as the mechanism to financial exploit Karis K.N. Richardson, restrict her movements and facilitate her sexual exploitation by torturing and attempting to kill her father Dale J. Richardson. This was one of the grossest forms of punishment that has been done to any human being over a protracted period of time. The level of malice required to commit such egregious acts is beyond reason. It is wholly unreasonable to presume that the prohibition of cruel and unusual punishments is of a limited scope and subject to section 1 limits. If that is the case, then one can argue that it is lawful to torture people under the constitution and that is an offence to the Constitution of Canada and United States Constitution and repugnant to both and to the Declaration of Independence. The general public have been injured by the corrupt activities of rogue agents within the government, who are working to subvert the Freedoms guaranteed by the Charter in the Province of Saskatchewan.

Any man woman or child has a Right to Petition for Redress of Grievances; including lawfully present Aliens whose God given Rights were violated within the Canada by any of the Men or Women within the Canada, especially when crimes were committed against the Man or Woman to further the Invariable Pursuit of the Object. Enslavement through base criminal actions to conceal gross corruption is a vile crime and an offence to the Constitution of Canada, the United States Constitution and strikes out the heart of the Declaration of Independence and must never be permitted. The Canadian People have a Right to be the True North Strong and Free; the American people have a

right to a Republican Government and to be the Land of the Free and the Home of the Brave. Torture and human/child trafficking is a primary tool of all tyrants and if the Convention against Torture was enforced in conjunction with habeas corpus, and other Constitutional provisions and statutes to restrain tyranny, this gross corruption would have been checked long before it got this far. Since in 100% of the courts that the information of the corruption related to COVID-19, and human/child trafficking were presented to, steps were taken to conceal it no matter who presented it and severe retaliation occurred. Local and federal agencies have done nothing to restrain corrupt governmental activity, therefore the Legislature of the Province of Saskatchewan must be employed to protect the People of within the Province of Saskatchewan, the nation of Canada and the United States and to investigate as outlined in the Petition that the Brief is attached to. The lack of provincial control of in the administration of justice protected by Article VI section 92(14) of the Constitution Act 1867 that is circumvented by the RCMP Act can only be repaired by the Saskatchewan Legislature. Part VII, Section 52(1) dictates that the RCMP Act has no force because there is no means for the Province of Saskatchewan to have control over the administration of justice since the Royal Canadian Mounted Police answer to Ottawa for discipline. Saskatchewan has no control over federal servants of the Crown. No police force can operate without having a law in force governing their actions. If the Legislature of the Province of Saskatchewan does not intervene to halt this tyrannical use of force by agents of the Crown within the borders of the Province of Saskatchewan to abrogate the Constitution of Canada and the United States Constitution it would invite the use of force to put down the outright acts of rebellion against the United States Constitution.

CONCLUSION

For the foregoing reasons, the Petitioners respectfully demand that the Legislature in the Province of Saskatchewan investigate the issues raised in the Petition, the arguments outlined within this Brief, the evidence provided in the attached Appendix and testimony and explanation by the Petitioners and other witnesses and experts whose information is contained in the documentation for the preservation of the Liberty of the People within the Province of Saskatchewan, Canada, and; for the preservation of the more perfect Union Guaranteed by the United States Constitution. United We Stand Divided We Fall.
